

SCE – LCE
JOINT RATE COMPARISONS

As part of our mutual commitment to better serve customers, Lancaster Choice Energy (LCE) and Southern California Edison (SCE) have come together to provide a comparison of common rates, average monthly charges, and the power sources we provide. Below you will find a representative comparison of our rates, average monthly bills, and power generation portfolio content based on customer class. To find your specific electric rate, please scroll down to your rate plan to view the rate and bill comparisons.

* SCE rates collapsed to the root level to simplify the presentation. For example, customers on the D-FERA-SDP-O rate should use the D-FERA rate for comparison to the CCA rate.

Definitions

Generation Rate reflects the cost of producing or purchasing electricity to power your home or business. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home or business. This rate depends on usage.

Surcharges represent the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS recovers costs of power purchase commitments that become stranded as a result of CCA initiating service. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Where Do I Find My Electric Rate Schedule?

Need some help finding your electric rate? Go to the “Details of your new charges” section of your energy statement – You’ll find your electric rate in the upper left.

*This comparison illustrates the estimated electricity costs for a typical Schedule TOU-D residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 1,069 kilowatt-hours (kWh). This comparison is based on billed usage from December 1, 2015 to November 30, 2016 for all applicable SCE Schedule TOU-D-T-CARE service accounts within the SCE service territory and LCE's published rates as of March 1, 2018.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS recovers costs of power purchase commitments that become stranded as a result of CCA initiating service. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Average Monthly Bill (\$)	\$16,016.54	\$17,684.27	\$19,352.01	\$15,817.63	\$17,503.34

Monthly Usage: 112,381 kWh Monthly Demand: 257 kW

Rates are current as of June 1, 2018

*This comparison illustrates the estimated electricity costs for a typical large commercial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 112,381 kilowatt-hours (kWh). This comparison is based on billed usage from December 1, 2015 to November 30, 2016 for all applicable TOU-GS-3-A service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of March 1, 2018.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS recovers costs of power purchase commitments that become stranded as a result of CCA initiating service. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Monthly Usage: 86,893 kWh Monthly Demand: 257 kW

Rates are current as of June 1, 2018

*This comparison illustrates the estimated electricity costs for a typical agricultural customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 86,893 kilowatt-hours (kWh). This comparison is based on billed usage from December 1, 2015 to November 30, 2016 for all applicable TOU-PA-3-B service accounts within the SCE service territory and LCE's published rates as of March 1, 2018.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS recovers costs of power purchase commitments that become stranded as a result of CCA initiating service. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
