Rates are current as of January 1, 2020					
*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 646 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2019 to December 31, 2019 for all applicable SCE Schedule D (non-CARE) service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of January 1, 2020.					
Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.					
SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.					
Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
